2009 SHOW REPORT

OIL & GAS LIBYA 2009 ran side by side with INFRASTRUCTURE LIBYA 2009 from 16 to 19 February 2009 at the Tripoli International Fairground and attracted 4,156 registered visitors.

They included petroleum engineers and geoscientists, government and private sector planners, specifiers and procurement officials, specialist contractors and trading agents.

204 exhibiting companies from 21 countries participated in the event, including national groups from Canada, China, Egypt, Germany, Italy, Malta, Poland, UK and the USA.

Libya's Minister of Trade, Mr Ali Abdul Aziz Alasawi, performed the opening ceremony.

Oil and gas – the driving force for Libya's economic development

The oil and gas industry is the driving force behind Libya's economic development, providing the massive investment needed for the country's ambitious infrastructure plans. To sustain the impetus, Libya is more than mid-way through its short-term plan to raise its oil production from the 2006 level of 1.6 million b/d to 2 million b/d by 2010, with longer-term ambitions to raise it to 3 million b/d by 2015.

In order to achieve these objectives Libya estimates that it will need to attract US\$30 billion foreign direct investment in the petroleum sector – in the upstream and downstream as well as in refining and petrochemicals.

OIL & GAS LIBYA is the only specialist international petroleum exhibition addressing Libya's fast moving oil and gas sector. This is your opportunity to demonstrate your products and services and to interface with the Libyan market.

OIL & GAS LIBYA 2010 will run alongside INFRASTRUCTURE LIBYA 2010 (www.infrastructurelibya.com)
